Re: formal disclosure of potential conflicts of interest

Dear Board,

With the adoption of our new code of ethics last evening, I'd like to make a formal disclosure of my potential conflicts of interest as related to village business. All of this information has been disclosed during meetings and in discussions previously, but our new policy requires written disclosure of potential conflicts. Technically, no disclosure is required until there is an actual conflict and I do not believe there are any matters before the board at this time for which any of my current activities introduces a conflict, but hopefully with this letter I have made clear all of my current community connections.

I currently hold the following volunteer positions in our community:

Chief, Hoags Corners Ambulance Association, Inc.

Firefighter, Hoags Corner Volunteer Fire Company, Inc.

Webmaster, Town of Nassau

Director, Save the Brainard Bell, Inc.

Chair of the Executive Board, Digital Towpath Cooperative

Treasurer, Rensselaer County Ambulance Association

Training Center Coordinator, American Heart Association

None of these positions are compensated financially and I hold no financial interest in any of the associated organizations.

Please let me know if you have any questions about this matter.

Sincerely,

Mitchell Levinn

Mayor
